SECRETAERODYNAMIC PROGRESS REPORT

1 November - 1 December 1952

A. P/A Students 508, 518, 519, 520, 521.

Since 1 November CASSOWARY 3 has employed the above-mentioned five men at the newspaper headquarters in Munich. They are presently sorting and analyzing all of the pouch material brought out from the homeland since 1946 with a view to collecting information for pamphlets and brochures propagandizing the Ukrainian liberation struggle. With the exception of 508, who will return to Paris when (or if) we succeed in having his visa renewed, the P/A's are now being considered as staff and instructor personnel for the projected CASSOWARY cadre school (see below).

B. PL's 503 and 507:

In the last month, except for an alleged letter written by the two PL's to Cardinal Tisserad with complaints against CASSOWARY 3, there have been no new flaps. As soon as our investigation of CAVATINA 12 is completed, we will determine which method to employ in pressuring CAVATINA 12 to desist from his attempts to penetrate U.S.-CASSOWARY operations and to make him responsible for any more threats or actions on the part of PL's 503 and 507.

C. CARTHAGES (See ☐ ☐ report attached hereto)D. CASSOWARY Newspaper:

Monthly financial accounts, May through September 1952, have been pouched. Although authorization for monthly subsidies beyond September has not yet been received from Headquarters, one payment of the monthly allotment was transmitted to CASSOWARY 3 on 29 November because the newspaper's unexpended balance had been completely exhausted. Headquarters is requested to extend the monthly subsidy beginning October 1952. We assume CASSOWARY 2 has already discussed with you an increase in the monthly subsidy to meet the rise in the cost of living in Germany during the last two years.

E. Cadre School:

Since 14 November when CASSOWARY 3 broached the subject of a cadre school again, we have been discussing details with him and will pouch a memorandum on the subject within a week. Discussions with CASSOWARY 3 to date have envisaged establishment of the school in Germany only. CASSOWARY 3 is quite confident that legalization of the school, student body and instructors will pose no problem. Also the possibility of renting a roomy place with large grounds suitable for a cadre type school is quite good. However, it may be necessary for the CASSOWARIES to make a definite commitment to the owner in the immediate future and, if final authority for the project is not received from Headquarters in time, the CASSOWARIES will have to pass up the only acceptable site they have been able to locate in over two months of searching.

F. W/T Contact with the Homeland:

With the reestablishment of contact with Underground headquarters on 29 November, we feel that MGM-A-0735 may provide Washington some assistance in anticipating the problems, both operational and political, which are likely to arise.

G. CAPELIN:

As usual, CAPELIN has provided in the course of the last month excellent CE and political reports on the Ukrainian emigration. Those reports which are purely CE are now being passed in translation to the CE Section for processing and will be reported on accordingly by that section. For the time being, CAPELIN will continue to be handled by case officers from the Ukrainian section, even though he is being written up as a CE project.

H. General:

[] are gradually assuming the functions of [] who will depart for the U.S. during the first week of January 1953. [] will take over the political contact functions and [] the training aspects of the AERODYNAMIC/ CARTHAGE project.

CARTHAGE PROGRESS REPORT

1 November - 1 December 1952

Carthage
(Kriminal)

A. Administrative/General:

See "Progress Reports" for Aero

After much unavoidable delay two safehouses, one in Starnberg and ~~Proper~~ another in the Gmund/~~Tegernsee~~ Tegernsee area, have been obtained for housing ~~Proper~~ CARTHAGES 10, 15, 16 and CARTHAGES 3 and 7. These two houses should be ready for occupancy within a few days. At that time the CARTHAGES will be moved from Bad Worishofen and Kempton respectively, CARTHAGES 10, 15 and 16 going to Starnberg where they will continue commo and other training, CARTHAGES 3 and 7 moving to the Tegernsee house where they will await disposal.

B. CARTHAGE 3:

1. CARTHAGE 3's common-law wife was recently moved from the safehouse in Kempton to her parent's home near Mindleheim. CARTHAGE 3 requested this move since he claimed it was embarrassing for all concerned for him to be living with a woman to whom he was not legally married. Nevertheless, CARTHAGE 3 expressed the desire that his common-law wife join him again whenever he moved to his new safehouse near Tegernsee.

2. It is planned to give CARTHAGE 3 the assignment of writing on various topics familiar to him and which can be used in agent training. These topics will be selected by the training section as determined by it to be lacking in its files. These topics will include bunker building, partisan tactics, escape and evasion, survival, etc.

3. Material is being assembled which will be used as a basis in the attempt to send CARTHAGE 3 to the U.S. under the "100 Agents" quota. In the meantime, the problem of marrying CARTHAGE 3 and his common-law wife has been discussed with CASSOWARY 3 and the possibility of documenting CARTHAGE 3 for Germany has been probed with no concrete results to date. CASSOWARY 3 claims that he can furnish CARTHAGE 3 with the required birth certificate and arrange for the wedding but that it will be up to us to furnish the proper German documentation. Every attempt will be made to this end.

C. CARTHAGE 5: (See NOTEE traffic and our comments for month of November)

D. CARTHAGE 7:

1. As in the case of CARTHAGE 3, material is being assembled on CARTHAGE 7 to be used for his emigration to the U.S. under the "100 Agents" quota.

2. While awaiting disposal, CARTHAGE 7 will also be given the assignment of writing on topics familiar to him and which can be used in agent training.

3. Recently CARTHAGE 7 revealed that his "girl friend" in Landsberg gave birth to his baby. This event happened after CARTHAGE 7 had been removed from the Landsberg Project to Kempton. The news of the birth was made known to the CASSOWARIES who had instructed CARTHAGE 7 to stay away from Landsberg. CARTHAGE 7 himself stated that he did not want to return to the "girl friend" and, such being the case, the problem seemed to be solved or nonexistent. However, it was soon learned that CARTHAGE 7 was making frequent visits to Landsberg and his "girl friend" there. In a discussion of this matter between CASSOWARY 6 and CARTHAGE 7, the latter stated that he was forced to make these visits for the following reason: while he was still in Landsberg, he took this girl to a doctor for injections which were supposed to cause an abortion. Instead, the baby was born prematurely with suspected damages. Because of the baby's state of health, CARTHAGE 7 felt that if he vanished from the scene, the girl would notify the police and that, if he was apprehended, he would be jailed for his part in the attempted abortion and subsequent desertion. Following a heated argument between CASSOWARY 6 and CARTHAGE 7, the latter was ordered never to visit Landsberg and his "girl friend" again. CASSOWARY 6 also informed CARTHAGE 7 that he would be moved to a new safehouse in a few days and hoped with CARTHAGE 7's disappearance the whole matter might be forgotten. Further adverse developments, should they occur, will be reported as they happen.

E. CARTHAGE 10:

1. CARTHAGE 10 has continued aiding the commo instructor train CARTHAGES 15 and 16. In this respect, he supervised CARTHAGE 15's base contacts as well as acting as ☐ in ☐ problems. CARTHAGE 10's own proficiency in commo is: Receiving speed - 20 wpm; Sending speed - 18 wpm.

F. CARTHAGE 15:

CARTHAGE 15 spent the entire period covered by this report in commo training only. His progress has been exceptionally good. The most recent commo instructor's report shows that he has attained a receiving speed of 19 wpm and a sending speed of 14 wpm.

G. CARTHAGE 16:

CARTHAGE 16 has advanced considerably since the last progress report, having upped his sending speed to 14 wpm from approximately 10 wpm and his receiving speed from approximately 9 wpm to 13 wpm. He has continued to show by his diligent application to training, an extreme desire to master commo. By hard work and hard work alone, he has reached the speeds mentioned. It remains to be seen whether or not CARTHAGE 16 will ever attain a proficiency to enable him to operate a W/T set alone, without the promptings of an instructor. The instructor has expressed concern in this respect for, while it was possible for CARTHAGE 16 to learn to send and receive, it is another matter to couple this phase of commo with radio procedure, setting up equipment,

ciphering and deciphering, learning danger signals, etc.

H. CARTHAGE 12 (See BADIC traffic and our comments for month of November)

I. Other:

Plans have been made whereby CASSOWARY 17 will be used as an instructor to train CARTHAGES 10, 15 and 16 in subjects other than commo, i.e. partisan tactics, paramilitary, Soviet actualities, report and cable writing, observation, etc. PRQ's I and II have already been filed on CASSOWARY 17 and a case officer discussion with him regarding training plans has been scheduled. Details of training plans, subjects, schedules, progress, etc., will be forwarded as they materialize.
